Turn Rain Into Revenue at Your Outdoor Events

When it comes to outdoor events, rain usually means ruin. But not anymore! **With RainSure, brokers can offer outdoor event clients payouts that grow with every 1/100th inch of rain up to 100% of their insured limit.**

It's a breakthrough in **peace of mind** and **profit protection**. And for brokers, a **guaranteed rain check** is an easy sell.

How It Works

With RainSure, if ANY measurable recorded rainfall ($\geq 0.01"$) during the policy period occurs, a predefined percentage of the coverage limit pays out.

Examples

\$10,000 Insurance Limit for:

Policy Structure

Rainfall

Total Payout

.25"
Rainfall Policy

This policy pays out in full (\$10,000) if the recorded rainfall during the policy period measures $\geq 0.25"$.

But what if it doesn't rain that much? That's where RainSure comes through! This model would still pay 4% of the coverage limit for every .01" of rain during the policy period. In this example, if the recorded rainfall is .16", the payout would be \$6400.

.01"	=	\$400
.03"	=	\$1200
.15"	=	\$6000
.16"	=	\$6400
.20"	=	\$8000
.25"	=	\$10,000

.50"
Rainfall Policy

This policy pays out in full (\$10,000) if the recorded rainfall during the policy period measures $\geq .50"$.

Or, this policy pays 2% (\$200) of the coverage limit up to 100% for every .01" of recorded rainfall during the policy period up to the aggregate (\$10,000).

.01"	=	\$200
.02"	=	\$400
.16"	=	\$3200
.20"	=	\$4000
.45"	=	\$9000
.50"	=	\$10,000

1.0"
Rainfall Policy

This policy pays out in full (\$10,000) if the recorded rainfall during the policy period measures $\geq 1"$.

Or, this policy pays \$100 for every .01" of recorded rainfall during the policy period up to the aggregate (\$10,000).

.02"	=	\$200
.15"	=	\$1500
.50"	=	\$5000
.62"	=	\$6200
.74"	=	\$7400
1.00"	=	\$10,000

Why This Matters to Your Clients

- ✓ Partial payouts that can cover lost revenue or even the premium amount
- ✓ Flexible coverage limits and thresholds
- ✓ No adjusters or lengthy claims process
- ✓ Payouts usually sent within 2 weeks

Why This Matters to You

- ✓ Easy to explain and quote a wide range of budgets
- ✓ Builds confidence with clients who rely on weather forecasts
- ✓ Opens new revenue channels
- ✓ Differentiates you from other brokers with proactive risk strategies
